Call for Papers

The 10th IAPR-TC15 Workshop on Graph-based Representations in Pattern Recognition (GbR2015) will be held in Beijing, China. GbR is a biennial workshop aiming to encourage research works in Pattern Recognition within the Graph Theory framework. Topics of interest include all aspects of graph-based representations and learning methods, and applications to computer vision and pattern recognition. Specifically, the scope includes, but is not limited to:

- Graph matching
- Graph transformations
- Kernel methods for graphs
- Graph-based image segmentation
- Graph-based shape recognition
- Graph-based machine learning
- Data mining with graphs
- Probabilistic graphical models
- Belief-propagation methods
- Graph-cuts methods
- Applications in document analysis and other fields

Important Dates

Paper Submission:	January 15, 2015 (Abstract by January 8)
Acceptance Notification:	February 15, 2015
Camera-Ready:	March 10, 2015
Workshop:	May 13 - 15, 2015

Paper Submission

Please submit papers via the online submission system:

<https://easychair.org/conferences/?conf=gbr2015>

All the submissions should present original work, be full-length of not more than 10 pages in Springer LNCS format.
